

FAA Testing

Second or third year students wishing to take an FAA Knowledge Test while at camp must meet certain requirements set in place by the Federal Aviation Administration (FAA). General requirements, as well as citizenship-based requirements, are listed below.

General Requirements

General requirements for both of the FAA tests are listed below. Note that students only need to meet the requirements for the test they are intending to take.

- Private Pilot Airplane Knowledge Test
 - 15 years old
 - \$175 testing fee, payable by credit/debit card
 - Flight instructor endorsement (provided by Culver)
- Unmanned Aircraft General (Part 107/Drone) Knowledge Test
 - 16 years old
 - \$175 testing fee, payable by credit/debit card

The test scheduling process will require access to a student's email, so be sure they have their log-in information. Your student's cell phone will also be necessary for Two Factor Authentication, which can be left with your student's unit during registration.

Additional identification requirements based on a student's citizenship status are below:

U.S. Citizens and Resident Aliens

A U.S. Citizen or Resident Alien must present one of the following original, unexpired documents at the testing center prior to taking an FAA Knowledge Test. Photocopies cannot be accepted.

- Identification card issued by any U.S. state, territory, or government entity (e.g., driver permit or license, government identification card, or military identification card)
- U.S. Passport*
- Alien residency card*

*If presenting a document without a listed address, additional address verification is required. Please contact flyculver@culver.org for more information.

Non-U.S. Citizen

A non-U.S. citizen must present the following original, unexpired documents at the testing center prior to taking an FAA Knowledge Test. Photocopies cannot be accepted.

- Passport

AND, one of the following:

- Driver permit or license issued by a U.S. state or territory.
- Identification card issued by any government entity.
